NETHERLANDS:

Dutch
Parliament
building
Hague
(Den Haag)

10 OCT. 2011
TIME: 13-15

Let us turn 10th October
into an international day against Islamic
Republic of Iran!

10th October is the International Day against Capital Punishment. Humanity has long fought against the medieval punishment of executions and stoning. However, in the 21st century, countries like USA, China and Iran are still carrying out this

savage practice. Let us turn this day into an international day against Islamic regime of Iran where hundred thousands of people have been executed and mass murdered.

We urge all to join us on 10th October,

International Day against Capital Punishment, to show our common resolute determination against executions and the Islamic regime. Take part or organize your own events against the Islamic regime of Iran, in defense of freedom of political prisoners in Iran.
